Domain Knowledge	Healthcare Back-Office Operations, Insurance Claims Processing, Policy Administration, US Client Management, Quality Monitoring
Other Tools	SQL (Basic), Excel (Advanced), Azure (Basic), Microsoft Forms

WORK EXPERIENCE

Associate – Insurance Operations *Nov 2023 – Jan 2026*
Concentrix Daksh Services India Pvt. Ltd. Pune, India

- Processed and managed US insurance claims end-to-end including manual calculations, adjudication support, and policy administration.
- Maintained daily and weekly reports tracking SLA compliance, team productivity, and error metrics using advanced Excel spreadsheets.
- Provided quality feedback and performance coaching to peers, ensuring adherence to US insurance client standards.
- Consistently maintained 99%+ accuracy in Claims, document verification, and compliance review tasks.

Power Platform Developer – Intern
Briqbi Analytics Pvt. Ltd.

- Developed 3+ Canvas Apps in Power Apps to automate attendance marking and IT ticket management, reducing manual effort by 40%.
- Built Power Automate cloud flows integrating SharePoint, Microsoft Teams, and Outlook to streamline multi-step approval workflows.
- Designed Power BI dashboards with DAX measures, drill-through reports, and row-level security for cross-functional management reporting.
- Created automated flows to reduce HR and operations workload and enable real-time collaboration through integrated Power BI reports.
- Collaborated with business analysts and stakeholders to gather requirements and deliver solutions aligned with user and business needs.
- Documented technical designs and conducted user training sessions to ensure successful adoption of deployed solutions.

KEY PROJECTS

Attendance Monitoring System | *Power Apps · Power Automate · SharePoint*

- Built a Canvas App with punch-in/punch-out functionality capturing date, time, and late-arrival detection.
- Automated attendance data storage to SharePoint lists with Power Automate; generated weekly summary reports in Power BI.
- Reduced manual attendance tracking effort by 100%, replacing paper-based logs with a digital system.

IT Helpdesk Ticketing System | *Power Apps · Power Automate · SharePoint · Power BI*

- Developed a Canvas App for employees to raise IT support tickets categorized by priority, issue type, and department.
- Automated ticket routing and email notifications to the IT team using Power Automate approval workflows.
- Built a Power BI dashboard for IT managers to monitor ticket volume, resolution SLAs, and category trends.

Employee Satisfaction Survey Automation | *Microsoft Forms · Power Automate · SharePoint · Outlook · Power BI*

- Created an end-to-end automated survey flow that schedules quarterly employee satisfaction surveys via Outlook to all employees.
- Collected form responses directly into SharePoint lists and triggered Power BI dashboard updates automatically.
- Added automated birthday and anniversary wishes and configured scheduled phishing/fraud awareness alert emails by employee tenure.

Leave Approval Workflow | *Power Automate · Outlook · SharePoint · Microsoft Teams*

- Designed an automated leave request and approval flow using Power Automate with manager notifications via Outlook and Teams.
- Stored leave records in SharePoint list with automatic status updates; reduced HR processing time significantly.

App Usage & Subscription Analysis Dashboard | *Power BI · Power Query · DAX*

- Built interactive Power BI dashboards tracking app installs, uninstalls, subscriptions, and trial-to-paid conversions across geographies.
- Used Power Query (M) and DAX for data transformation, modeling, and trend analysis.
- Analyzed user adoption, churn patterns, and customer behavior to support product growth and retention decisions.

EDUCATION

Bachelor of Business Administration (Finance) *2020 – 2023*
Shivaji University, Kolhapur 78.67%

ACHIEVEMENTS & ADDITIONAL INFO

- Recognized for delivering 3+ automation projects during internship ahead of scheduled deadlines.
- Contributed to a 35% reduction in manual data processing time through Power Platform automation solutions.
- Strong experience working with US-based clients in healthcare and insurance operations across different time zones.
- Languages: English (Professional), Marathi (Native), Hindi (Fluent)
- Available to join: Immediately
